## Celebrating the Best of Cuisine and Wine in Charlottesville

In Central Virginia we are extremely fortunate to be able to source most of our ingredients from small local farmers. Chef Brian Helleberg is passionate about supporting such farms as they bring the best flavors to the table. In doing so, we help to keep these farms, with exceptional produce and protein, thriving.

Wayside Produce hand delivers exceptional root vegetables and tomatoes. Polyface Farms provide us with some of the most pampered poultry in the country. The artisan goat milk cheeses from Caromont Farm, rival the best in the world.

When “cherry picking” the wines for this list, I have a similar frame of mind. Supporting small family vigneronns can also make for the best juice in the glass. These amazing producers have a love and dedication to their craft. The attention to detail and care for the land that these farmers and winemakers exhibit is a true labor of love. It is a passion of mine to educate our guests on wines they may have never heard of. Though our list spans the globe, we feature some of France’s best, and pay special attention to the talented producers in Virginia. Let us guide you through this list of some of the best wines of the world.

## Jura Blanc

*A favorite region among wine geeks. Located east of Burgundy, winegrowers in Jura produce some of the most mysterious wines in all of France.*

*Think rustic farmland, hearty cuisine, and traditional, old-school winemaking. These are wines for a ponderous mood. You'll find a wide variety of styles splayed out on a flor spectrum. There are "regular" white wines on one end of the spectrum; on the other end, you'll find flor-influenced wines that taste more like a dry fino sherry. The more flor there is, the more you will want to pair this wine with shellfish...*

## Burgundy Blanc

*Chardonnay at its finest. "Plant your vines where the snow melts first" has long been a saying that points vigneron to plots with the most sunlight. When chardonnay is planted in sunlight on this kind of unique limestone, a lustrous terroir manifests in the glass.*

## Petit Manseng in France & Virginia

*"There is a lot of clay in Jurançon, and humidity. It's very similar to here."*

~Matthieu Finot, winemaker at King Family Vineyards in Crozet, Virginia

*We rarely see Petit Manseng outside of its home in southwest France, particularly in the Jurançon. Aside from a few scattered plantings throughout the world, if you look at Petit Manseng's diaspora, it pretty much consists of Virginia. Petit Manseng has open clusters that allow for airflow, which is perfect for the humid climate you'll find in the Jurançon and in Virginia.*

- 1562 ~ 'Mansengue' is mentioned in Jurançon text
- 1562-1780s ~ It is highly likely that a seed from a Manseng plant grew to become Gros Manseng, with the parent later distinguished as Petit Manseng
- 1783 ~ Petit Manseng is distinguished from Gros Manseng in text
- 1987 ~ Professor of Viticulture Tony Wolf (Virginia Tech) brings Petit Manseng from New York to Virginia to evaluate varieties for Virginia's climate
- 2000 ~ Michael Heny and Graham Bell makes a Petit Manseng wine at Horton Vineyards
- 2002 ~ Jennifer McCloud of Chrysalis releases a 100% Petit Manseng bottling
- 2009 ~ about 2,500 acres of Petit Manseng in France
- 2011 ~ DNA findings imply that Petit Manseng is a parent of Gros Manseng
- 2011 ~ 69 acres of Petit Manseng in Virginia
- 2017 ~ 381 acres of Petit Manseng in Virginia
- 2018 ~ Virginia's Wisdom Oak Winery wins 'Double Gold' at the San Francisco International Wine Competition with their 2017 Petit Manseng
- 2020 ~ Lightwell Survey produces Virginia's first biodynamic Petit Manseng

## Amber Wines of the World

*Amber wine is skin-fermented white wine. It's a style of winemaking that once pervaded the known world, now used by only a few.*

*These jewel-like wines are hotly debated in the wine world. Some wine experts disdain amber wines on the assumption that skin-contact wines display aromas and flavors of wine-making technique rather than terroir. These same Amber nay-sayers usually contradict themselves when they also say that terroir is best expressed in a traditional red ferment with heavy skin maceration, or that terroir is absent in a 'simple' rosé.*

*Amber wines force us to re-examine the locus of terroir in wines made from white grapes—does terroir lie in the grape flesh? The seeds? The skins? It could be a combination...*

*Amber wine is 'oddball' at the moment, but I long for a day when it has its proper place at the table. And this place is with foods that a traditional white wine or red wine may not quite complement, such as poultry, pork, and fatty foods like foie gras. Amber wines often have the tannin structure of a pinot noir with the lightness of being of a white wine, and this allows them to occupy an alternate universe of food pairing with dishes that require in concurrence both delicacy and power.*

## Cru Beaujolais Rouge

*It would behoove us all to pay more attention to the region of Beaujolais.  
 The Crus of Beaujolais produce wines that are rich, yet approachable.  
 By law, they must all be hand-harvested. Yet despite this meticulous vineyard work,  
 most Cru Beaujolais wines are around \$60.  
 These wines ignite a great synergy with food, as they support cuisine without overpowering it.  
 Forget Beaujolais nouveau, below you will find a curated collection of gems from this overlooked region.*

# Nebbiolo...

...a life-changing grape, if I have ever tasted one. Often referred to as Piemonte's answer to Pinot Noir. It is even more fickle to produce than Pinot Noir. Light in color and the exact opposite on the palate. Tannic, elegant, complex and often ethereal. In Barolo and Barbaresco it responds to every nuance of aspect and elevation. The name Nebbiolo derives from nebbia, the Italian word for "fog." This is likely from the white, powder-like natural bloom on the grapes that appears during harvest season. Or, from the fact that the best Nebbiolo sites are located above the fog that collects in the valley. Or, perhaps because harvest in Piemonte also begins in the foggy, October season. Sounds like a trifecta to me.

There is some great Nebbiolo produced in Northern Italy, as we move into the Alpine regions. Virginia is one of the few places of the world that has been able to produce wonderful Nebbiolo. We have Gabriele Rausse to thank for this.

## Elk Cove

### A Comparison of Single Vineyards

Elk Cove Vineyards was founded in 1974 by Pat and Joe Campbell. Winemaker Adam Campbell joined forces with his parents in 1995 and Elk Cove remains proudly family owned.

**Mount Richmond Vineyard** sits on marine sediment soil (*Willakenzie*) in the foothills of the Coast Range Mountains. In the heart of the Yamhill Carlton AVA. The vines were planted in a high-density format using cuttings of Pommard clone Pinot Noir taken directly from that esteemed block. An elevation of just 300 feet allows for earlier ripening.

**Five Mountain Vineyard** is set on a steep southeast facing slope in the Chehalem Mountains AVA, with a spectacular view of five volcanoes of the Cascade Range: Mount Hood, Mount St. Helens, Mount Rainier, Mount Jefferson, and Mount Adams. This historic vineyard on loess soil (*Laurelwood/windblown silt*) was planted in 1978 by the Ponzi family and was purchased by Elk Cove in 2005.

## Provence, Languedoc-Roussillon, Southwest Rouge

*It's hot and dry in the lands that border the north Mediterranean coast. The wines from this area are often dense and rich, taut and at times sinewy. They are relentlessly raw and straightforward, and always perfect with local Virginia grass-fed steak...*

## Rhône Valley Rouge

*The Rhône River winds through the inhospitable rocky hills in the north to the gallet-studded plains in the south. The gobelet-trained vines look like small shrubs. The fruit they produce is taut and flavorful. Here there is a democracy between many grape varieties, from picpoul to syrah. The biodiversity and variation in the soil translates to a wide spectrum of flavors and styles.*

## American Red

*We have come so far since the days of Prohibition. Just a century ago we were preparing to shut down American wineries left and right. Generations later, the wine industry in the US has bounced back with incredible force. The benchmark wineries below have come a long way in exploring and pushing the envelope of what American terroir can express. The next generation of US wine will build upon their work.*

# Wines of Virginia

*Here are a few of our favorites from Virginia's blossoming wine industry....*

## **Castle Hill Cider** - Terrestrial 2019 \$45

*A producer of truly world-class cider. The style of Castle Hill rivals the best of Normandy. We are huge fans of these dry and complex offerings. A dry, refreshing blend of crab and heirloom apples provides structure for citrus notes. 100% estate grown.*

*Apples: Golden Russet, Albemarle Pippin, Hewes, Dolgo*

## **Lovington** - 'Gilbert's Vineyard' Pinotage 2019 \$69

*This is one of the greatest wine values in Virginia. A playful offering reminds us of a wild, red fruit driven Pinot Noir. This Pinotage is grown on red clay slopes. This tasty bottling comes to us byway of the*

*Puckett family & is crafted by the insightful winegrower, Riaan Rossouw. (627)*

## **Wisdom Oak** - 'Nineteen' Bordeaux Style Blend 2019 \$79

*Jason and Laura Lavallee purchased this North Garden, boutique winery in 2015. Jason is in control of the vineyard management and winemaking. They still do it all by hand. Jason taught me how to prune vines during the pandemic.*

*Laura is the heart and soul behind the tasting room and picnic areas.*

*Bring your dogs along for a visit, here in heart of the Monticello Wine Trail...*

*But beware, bears are often looming about. (610)*

## **Barboursville** - 'Octagon' Bordeaux Style Blend 2018 \$115 (611)

- Nebbiolo 2019 \$78 (624)

*Winemaker Luca Paschina culls some very special grapes from Virginia's red clay to make this landmark wine.*

*We call it a 'landmark' wine for a few reasons: it carries the mark of the land and represents the soils of the Monticello AVA.*

*The label depicts a design by Thomas Jefferson of the ruins that rise up from the vineyards thus paying homage to the historic building and the echoes of Barboursville's past; and the wine itself is something of a landmark in Virginia's wine landscape.*
